possession and enjoyment of the Khatedars. The extents actually found in the occupancy enjoyment during the resurvey of 1894 were 20-8 & 20-25 respectively hence the Dy Comr concludes that there has been encroachments to the extent of ~~1-0-0~~ 11-38 & 10-22 by the Khatedars of Sno 143 & 144 respectively

The petitioners refer to the extents given in the Settlement Register but furnish copy of the Tasdik Patrak given by the Survey Supt it appears that out of the extent of 75-35 comprised in Sno 144, only 10 acres were granted to the occupants & that a resurvey was contemplated (there is no mention about Sno 143 in this copy).

The encroachment seem to be clear but owing to the errors in the Survey itself, the Dy Comr has not fixed the assessments but has ordered the taking the encroached portion in plots of 5 acres each

The Appellants' prayer is
that the encroached portion
may be given to them from the

It appears from the Revenue
that Mr. J.E. Hamilton of

The Secretary to Government

Sir

In reply to Government order No Pol 578 dated 4th September, 1936 and further correspondence ending with the Secretary's reminder No 601 dated the 29th ultimo, calling for a report on the petition of Idde Jonda and others of Makwanchi village, Kagoro District, appealing against my order in the encroachment by the petitioners of certain Government lands in the said village, I have the honour to report as follows:—

2. Petitioners are the occupants of

Survey No	Name	Survey Nos 142, 143 and 144 as noted in the margin, which fixes the

above

shown on the survey map as situate within survey No 34 of the adjoining village of Chandrapur Jagir. The land belong to the Mauzawaili village and have never been treated in the Revenue account as "Patti" number of the latter.

(Note — 'Patti' is a term by which a field, situated in one village is referred as belonging to and forming part of another village).

The petitioners appear to have been in the occupation of the aforementioned lands, continue before the advent of the Survey, as will be seen from the Office Patta (accompaniments to the Transaction record) granted under the Patta System.

3. With the exception of the 3 pieces of land in dispute, the survey No 34 of the Chandrapur village is unoccupied.

4. In 1893-94, it was discovered that petitioners had encroached upon survey No 34 (unoccupied) of Chandrapur and cultivated the encroached extent with Office and Cowlanama.

This fact was duly brought to the Indian Office (No 5) of the year Vijaya 1893-94, by the Clerking, and the Amildar's enquiry concerning it the matter was kept for my disposal at the Janmabandi settlement of that year.

5. During the Janmabandi the parties having in my presence admitted their encroachment for 2 years previously, I passed an order in February 1894 that the encroached portion be measured off into 6 acre lots and sold by public auction, as in the meantime applications for lands in survey No 3 + with deposit of the prices have been received for purposes of proper cultivation. But pending a correct remeasurement of the lands encroached upon by the petitioners the disposal of lands in No 3 + was held in abeyance.

6. From my personal inspection of the several numbers under notice, doubts have arisen as to the correctness of the areas originally assigned to each number by the Survey

9. From the Talook records and by the petitioners own shewing the coffee and Cardamom plants on nearly all the lands now remeasured are found to be from 3 to 8 years old. This fact, I submit, is sufficient to prove the petitioners' encroachments, disregarding the question of the existence or otherwise of some of the boundary marks as urged by the petitioners.

10. The Vernacular records connected with the case are herewith submitted as called for together with a sketch map of survey Nos 142, 143 and 144 in question, distinguishing (in red) the extent as now cultivated by the petitioners from that shown on the original survey map.

11 The appeal petition is returned.

12. The reason of delay in replying to this petition is on account of my ordering a resurvey of the

two villages of Chandrapur and Hammergod owing to certain boundary disputes having arisen between the owners of these two coffee estates, Mr J. G. Hamilton and Colonel Sanderson the results of which resurvey have proved the original survey to have been wrong.

I have the honor to be

Sir

Your most obed[t] Servant

H H Parker

Deputy Commissioner

Kadur District

Department and in this case instituted by the grazing Inspector area arrived at as the resurvey done of the identical numbers by the Survey Department stands at intervals, i.e. in no two re-surveys of the same number did the areas approximate, as is apparent from the following figures taken from the Survey Department books of the Nakhonahalli village.

Survey No	Original Survey of 1871		Resurvey (year not known)		Resurvey of 1883 i.e. current area		
	A	G	A	G	A	G.	
142	—	28	60	20	10	3	
143	1	36	5	36	8	10	
144	8	27	7	20	10	5	As per Patrah.

Thus, the disparity between the original and subsequent surveys clearly leads to an inference that boundary stones were variously fixed by the Measurers deputed on different occasions.

7. In order to ascertain the actual extent of land enjoyed by the petitioners, a remeasurement of the 3 numbers in question was recently

made under my orders by the District Surveyor with the following results:—

Survey No.	Khatedar	Actual area cultivated	
		A.	G.
142	Lalajirao & Janjirao	17	5
143	Patankirao & Lalajirao	20	8
144	Bapu Gowda	20	25

5. Full facts of excessive cultivation in respect of each of the above numbers as also the disappearance from or displacement at either of the boundary marks, visual tests to an attempt on the part of the petitioners to misleading any Mamlatdar and thereby to conceal their clandestine cultivation or to an omission on the part of the Measurement Assistant by the Survey Department in not having properly fixed the boundary marks to avoid all possible future differences as regards boundaries.

3 W.D. Broadly the facts are, that the original measurement was revised by Captain Hayes and the latter officer's measurement was again revised by Colonel Lowis Lewis the discrepancies in areas at various times. The accompanying file (to be kindly returned) will explain what occurred. The final settlement by Colonel Lowis which corresponds with the present Khasi Land Limitation of Survey Area No. 23 and is the area actually cultivated by them at the time of settlement. There appears to me to be no doubt that the petitioners have

Petition No 1078 dated 20-10-96 and the subsequent petns received from Tippi ganda, Pullavazhi ganda and Adi ganda of Mallaramkulli village in the Mudigere Taluk, appealing against the ordering the Dy Comr, Kadur Dt, present on the Tahsildar's Patta Tikta of 1893-94 of Chandrapur village directing the sale of by auction of the portion of land area 3 Nos 143 and 144 of the said village, encroached upon by the petitioners

L.R. 145-94-III

2. Correspondence ending with letter No 120 dated 18-8-96, from the Dy Comr, Kadur Dt, reporting on the above ~~and subsc~~

3. Letter No 400 dated 13th December 1897, from the Supdt of Rev. Survey in Alleppey reporting on certain

certain discrepancies of measurement reported in the Dy Comm's letter, above quoted.

3. The records of the case & order-sheets: L.C. 9507-8. P.F. 69-97 dt. 1.4.98 (250)

Keeping in view that under all the circumstances of the case, it seems equitable that the petitioners should be allowed to retain the land ~~enjoyed upon~~ ~~under dispute~~ for an upset price as prayed for by them and ~~to~~ the payment of the previous three years' ~~land cess~~ assessment. The Dy Comm ~~is requested~~ will ~~to~~ act accordingly —
